

Allied Healthcare Professionals Module

Allied health professionals (AHPs) are key members of today's multidisciplinary healthcare team. They work in partnership with health and social care colleagues across primary, secondary care and social care as well as in the independent and voluntary sectors. They operate in a range of surroundings including hospitals, people's homes, clinics, surgeries and schools. This module contains accurate contact details for AHPs working in the areas of dietetics, perfusion, physiotherapy and podiatry.

binleysonline is updated daily and the contents of the *Allied Healthcare Professionals Module* are 100% verified every 12 months. Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
Counsellor
Dietician
Medical Director
Nursing, Director of
Operation Department Practitioner
Perfusionist
Physiotherapy Manager
Podiatrist
Podiatry Manager

This module contains location types including:

Location Type
Care Provider
Clinic/Health Centre
Community Health Partnership
GP Surgery
HBS Combined Service
HBS Specialist Service
Health Board Scotland
Hospice
Hospital
Islands
Local Health Board
Locality Office
Other NHS Location
Prison Surgery
Trust

Therapy Hub – Cardiology

Identifying your customers is one thing, understanding them is another. Therapy hubs allow you to do both. They combine contact information with customer intelligence relating to those people and organisations involved in the awareness, referrals, treatment and prescribing of your therapy area. Therapy hubs provide you with unique customer and market insight, in a single online platform, that saves time and effort searching across multiple sources, allows you to focus your strategic plans with confidence and informs your sales and marketing campaigns with precision. Includes:

- All organisations where services relating to your therapy area are provided or commissioned
- All people involved in the service provision and/or treatment of your therapy area
- A library of NHS documents with keywords relating to your therapy area
- Updated daily to ensure that you have the latest information available at your fingertips
- Email alerts that notify you when new customers and/or intelligence is added
- A count map and a detailed analytics map that show therapy coverage in the UK

Responsibilities include:

NOTES: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary from update to update due to organisational changes. All information and figures correct as of May 2015.

Clinical Directorates Module

A clinical directorate is a team of healthcare professionals within a specialty, or group of specialties, which is responsible for the provision of patient care within an allocated resource. A clinical directorate is usually headed by a clinician and is accountable for its management function to the Board of Management of the trust, unit or division. The patients' clinical care remains the responsibility of the clinician in charge.

binleysonline is updated daily and the contents of the *Clinical Directorates Module* are 100% verified every 4 months.

Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
Clinical Director
Directorate Manager
Directorate Nurse Manager
Directorate Service Manager
Medical Director
Other Directorate Manager

The following selection criteria are available for services offered:

Clinical Networks Module

Clinical networks are a group of healthcare professionals that support a modern approach to improving healthcare for a specific disease, long-term condition or patient group. A managed clinical network is a network of a variety of health staff from across primary, secondary and voluntary health care working together to make sure that high quality clinically effective services are fairly distributed. These include doctors, pharmacists, nurses, NHS managers, health visitors, social services, physiotherapists, occupational therapists, patients and carers.

binleysonline Clinical Networks Module is ideal for anyone wishing to communicate with UK clinical networks including cancer networks, cardiac networks, neonatal networks and joint clinical networks.

binleysonline is updated daily and the contents of the module are 100% verified every 12 months.

Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility	Responsibility	Responsibility
Allied Health Professionals (CNW), Lead of	Lead Clinician (CNW)	Service Improvement Lead
Associate Director (CHDNW)	Lead Commissioner (CNW)	Tumour Lead - Breast (CNW)

General Practitioners Module

The role of the GP has changed considerably as a result of the NHS reforms in April 2013. GPs, as part of the newly formed clinical commissioning groups (CCGs), are responsible for controlling the majority of NHS budget and will decide how and where to spend money allocated to them to meet the needs of the local healthcare economy in which they operate. They will incorporate their new commissioning responsibilities with their day-to-day practice of seeing, treating and referring patients.

binleysonline *General Practitioners Module* is ideal for anyone wishing to communicate with general practitioners throughout the UK. **binleysonline** is updated daily and the contents of the module are 100% verified every 6 months.

Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
Assistant GP
Associate GP
Civilian Medical Practitioner
Flexible Career Scheme GP
GP Clinic Provider
GP Partner
GP Registrar
GP Retainer
GP Trainer
Locum GP

Hospital Doctors Module

Hospital doctors work within many specialist fields covering medicine, surgery, pathology and psychiatry but may also be involved in teaching and carrying out research. As well as day-to-day administrative duties such as keeping patient records and writing reports, hospital doctors are increasingly undertaking managerial responsibilities in hospitals, getting involved in auditing and attending committee meetings.

binleysonline *Hospital Doctors Module* is ideal for anyone wishing to communicate with hospital doctors throughout the UK.

Information is updated daily and the contents of the module are 100% verified every 12 months. Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, grade, specialty, locality, region, town and postcode.

There are named individuals in this module, within the following umbrella specialties:

Umbrella Specialty	Umbrella Specialty	Umbrella Specialty
Accident & Emergency	Geriatric Medicine	Pain Management
Anaesthetics/ITU	GUM	Palliative Medicine
Audiological Medicine	Homoeopathy	Pathology
Cardiology	Immunopathology/Immunology	Pharmacology/Toxicology
Cardiothoracic Surgery	Infectious Diseases/Tropical Medicine	Plastic Surgery
Clinical Physiology	Mental Health/Learning Disabilities	Public Health/Community Medicine
Dermatology	Nephrology/Renal	Radiology
Endocrinology/Diabetes	Neurology/Neuroscience	Rehabilitation
ENT	Neurosurgery	Rheumatology
Family Planning/Reproductive Medicine	Obstetrics & Gynaecology	Special Care
Forensic	Oncology	Surgery
Gastroenterology	Ophthalmology	Thoracic/Respiratory
Gender Identity	Oral & Maxillofacial Surgery	Trauma & Orthopaedics
General Medicine	Oral Medicine	Urology
Genetics	Paediatrics	

Please note that the counts shown above relate to generalised 'umbrella' specialties. All specialist Paediatrics are included within the main "umbrella" specialty. Over 200 specific specialties are available, see specialty list for details.

Grades:

Grade
Associate Specialist
Clinical Assistant
Consultant
Dental Officer
Professor
Specialist Registrar
Staff Grade

NHS Pharmacists Module

Pharmacists are experts in medicines and how they work; and play a key role in providing quality healthcare to patients. They use their clinical expertise together with their practical knowledge to ensure the safe supply and use of medicines. The hospital pharmacist is part of a hospital team, providing, preparing and dispensing medicines to patients who are or have been treated in the hospital.

binleysonline NHS Pharmacists Module provides a comprehensive source of hospital based pharmacists throughout the UK NHS.

Information is updated daily and the contents of the module are 100% verified every 6 months.

Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility	Responsibility
Accountable Officer for Controller Drugs	Formulary Management
Area Prescribing Committee	Formulation Research
Chair – Area Prescribing Committee	General Pharmaceutical Services, Head of
Chair – Local Professional Network	Independent Medical Advisor

Therapy Hub – Oncology

Identifying your customers is one thing, understanding them is another. Therapy hubs allow you to do both. They combine contact information with customer intelligence relating to those people and organisations involved in the awareness, referrals, treatment and prescribing of your therapy area. Therapy hubs provide you with unique customer and market insight, in a single online platform, that saves time and effort searching across multiple sources, allows you to focus your strategic plans with confidence and informs your sales and marketing campaigns with precision. Includes:

- All organisations where services relating to your therapy area are provided or commissioned
- All people involved in the service provision and/or treatment of your therapy area
- A library of NHS documents with keywords relating to your therapy area
- Updated daily to ensure that you have the latest information available at your fingertips
- Email alerts that notify you when new customers and/or intelligence is added
- A count map and a detailed analytics map that show therapy coverage in the UK

Responsibilities include:

NOTES: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts may vary from update to update due to organisational changes.

Operating Theatres Module

Operating theatres are an integral part of acute hospital activity using a significant proportion of the total resources of a hospital. It costs around £0.8 million to build and equip one operating theatre. Annual budgets for the main theatre departments in acute trusts in England and Wales total well over £1 billion (between £1-16 million in each trust).

binleyonline *Operating Theatres Module* provides you with access to key decision makers who procure a vast range of theatre equipment and services.

binleyonline is updated daily and the contents of the module are 100% verified every 12 months. Records can be searched for using a vast range of criteria including: organisation, job function(s), job title, specialty, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility	Responsibility
Assistant GP	Medical Director
Associate GP	Medical Officer
Civilian Medical Practitioner	Nurse Advisor
Clinical Directors	Nursing, Director of
Consultant	Operation Department Practitioner
Directorate Managers	Other Directorate Manager
Directorate Nurse Manager	Salaried GP
Directorate Service Manager	Senior GP
EBME Team Leader	Specialist Nurse
GP Clinic Provider	Specialist Nurse Practitioner
GP Partner	Sterile Services
Hospital Doctor	Theatre Manager
Locum GP	Theatre Nurse
Macmillan/Marie Curie Nurse	Transplant Co-ordinator
Matron	Ward Manager

This module contains the following areas of specialty / service:

A & E	Gastric Surgery	Paediatric Anaesthetics
Anaesthetics	Gastroenterology	Paediatric Gastroenterology
Audiological Medicine	General Surgery	Paediatric Plastic Surgery
Burns & Plastic Surgery	Hepatobiliary	Paediatric Surgery
Cardiothoracic Surgery	ICU/ITU/Critical Care	Plastic Surgery
Colo-Proctology	Laparoscopic Surgery	Prosthetic Dentistry
Colo-rectal Oncology	Maxillofacial Surgery	Renal
Colo-Rectal Surgery	Neurosurgery	Restorative Dentistry
Colposcopy	Obstetrics & Gynaecology	Surgical Oncology
Cosmetic Surgery - Surgical	Ophthalmology	Thoracic Surgery
Dental Surgery	Oral & Maxillofacial Surgery	Tissue Viability/Wound Care
Dentistry	Oral Surgery	Transplantation
Endoscopy	Orthodontics	Upper GI Surgery
ENT	Orthopaedics	Urology
Foetal Medicine	Paediatric A & E	Vascular

Practice Managers & Admin Module

GP practice managers and admin staff contribute towards the overall running of a GP practice, or a group of GP practices, to ensure that they run efficiently for patients and that the healthcare professionals have the support that they need. As well as the day-to-day responsibilities, practice managers also contribute to the long-term goals of the practice.

binleysonline Practice Managers & Admin Module is ideal for anyone wishing to communicate with practice managers and GP practice admin staff throughout the UK.

binleysonline is updated daily and the contents of the module are 100% verified every 6 months.

Records can be searched using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
Computer Systems
Dietician
Dispenser
Healthcare Assistant
Healthcare Manager
Other Staff Member
Practice Manager
Prescribing Advisor

Practice Nurses Module

Practice nurses work in a GP surgery as part of a primary healthcare team. They provide assessment, screening, treatment to patients from all sections of the community. Those that undertake additional training may also prescribe licensed medication within their competence, including some controlled drugs.

binleysonline Practice Nurses Module is ideal for anyone wishing to communicate with practice nurses throughout the UK.

binleysonline is updated daily and the contents of the module are 100% verified every 6 months.

Records can be searched using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
GP Clinic Provider
Nurse Practitioner
Practice Nurse
Senior Practice Nurse

This module contains organisation types including:

Location Type
Clinic/Health Centre
GP Surgery
MOD Surgery
Prison Surgery
Walk In Centre

Private Hospitals Module

Private hospitals in the UK provide medical services to patients outside of the NHS structure. They are normally owned by a private or a non-profit organisation and offer healthcare privately funded by either patients themselves or by insurance companies. Personnel working in private healthcare may either work exclusively at one or more private hospitals or split their time across both private and NHS care.

binleysonline is updated daily and the contents of the module are 100% verified every 12 months.

Records can be searched using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
Business Manager
Caldicott Guardian
Catering
Chief Executive/General Manager
Chief Pharmacist
Customer Services, Head of
Estates Management
Facilities Management
Finance, Director of
Health & Safety
Hotel Services

Therapy Hub – Respiratory

Identifying your customers is one thing, understanding them is another. Therapy hubs allow you to do both. They combine contact information with customer intelligence relating to those people and organisations involved in the awareness, referrals, treatment and prescribing of your therapy area. Therapy hubs provide you with unique customer and market insight, in a single online platform, that saves time and effort searching across multiple sources, allows you to focus your strategic plans with confidence and informs your sales and marketing campaigns with precision. Includes:

- All organisations where services relating to your therapy area are provided or commissioned
- All people involved in the service provision and/or treatment of your therapy area
- A library of NHS documents with keywords relating to your therapy area
- Updated daily to ensure that you have the latest information available at your fingertips
- Email alerts that notify you when new customers and/or intelligence is added
- A count map and a detailed analytics map that show therapy coverage in the UK

Responsibilities include:

NOTES: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts may vary due to organisational changes.

Retail Pharmacists Module

A retail pharmacist works according to legal and ethical guidelines to ensure the correct and safe supply of medical products to the general public. They are involved in maintaining and improving people's health by providing advice and information, and supplying prescription medicines. Retail pharmacists also sell over-the-counter medical products and instruct clients in the use of medicines and medical appliances. Some pharmacists will also offer specialist health check services, such as blood pressure monitoring and diabetes screening.

binleysonline Retail Pharmacists Module provides comprehensive contact information for the UK's retail pharmacists including those who have responsibility for purchasing at either local or company-wide level.

binleysonline is updated daily and the contents of the module are 100% verified every 6 months.

Records can be searched using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Responsibility
Area Manager
Branch Purchaser
Chain Purchaser
Chief Executive
Chief Purchaser
Dispenser
Finance, Director of
Locum Pharmacist
Multiple Main Purchaser
Multiple Part Purchaser
Operations Manager

Smoking Cessation Module

Nearly 25% of the adult population smoke and two-thirds would like to stop, in striking contrast to the 2-3 per cent that actually do manage to quit without assistance. Simple advice on smoking cessation from a health professional can approximately double the quit rate and more intensive support can double this again.

binleysonline *Smoking Cessation Module* contains the contact details of those key professionals.

binleysonline is updated daily and the contents of the module are 100% verified every 12 months.

Records can be searched using a vast range of criteria including: organisation, job function(s), job title, locality, region, town and postcode.

There are named individuals in this module, covering the following areas of responsibility:

Specialist Nurses Module

The term 'Specialist Nurse' encompasses a wide plethora of job titles, covering many different roles. Typically a 'Specialist Nurse' spends the majority of their time (60%)* in clinical activity with a further 17% spent in education, 14% in management activity and 4% in research. Core specialist nurse activities include patient assessment/referrals, autonomous decision making and offering specialist advice.

binleysonline *Specialist Nurses Module* is ideal for anyone wishing to communicate with specialist nurses throughout the UK.

binleysonline is updated daily and the contents of the module are 100% verified every 12 months. Records can be searched using a vast range of criteria including: organisation, job function(s), job title, grade, specialty, locality, region, town and postcode.

There are named individuals in this module, within the following umbrella specialties:

Umbrella Specialty	Umbrella Specialty	Umbrella Specialty
Accident & Emergency	Homoeopathy	Palliative Medicine
Anaesthetics/ITU	Immunopathology/Immunology	Pathology
Audiological Medicine	Infectious Diseases/Tropical Medicine	Pharmacology/Toxicology
Cardiology	Mental Health/Learning Disabilities	Plastic Surgery
Cardiothoracic Surgery	Nephrology/Renal	Public Health/Community Medicine
Dermatology	Neurology/Neuroscience	Radiology
Endocrinology/Diabetes	Neurosurgery	Rehabilitation
ENT	Nutrition/Dietetics	Rheumatology
Family Planning/Reproductive Medicine	Obstetrics & Gynaecology	Special Care
Forensic	Oncology	Surgery
Gastroenterology	Ophthalmology	Thoracic/Respiratory
General Medicine	Oral & Maxillofacial Surgery	Tissue Viability
Genetics	Oral Medicine	Trauma & Orthopaedics
Geriatric Medicine	Paediatrics	Urology
GUM	Pain Management	

Please note that the counts shown above relate to generalised 'umbrella' specialties. All specialist Paediatrics are included within the main 'umbrella' specialty. Over 200 specific specialties are available, see specialty list for details.
